

Village to Village Network and Verified Volunteers. Working Together.

Verified Volunteers – the only background check platform tailored to the specific needs of the service sector and the first online community to mobilize repeat, vetted volunteers – is now the exclusive screening provider for Village to Village Network.

Who We Are

Verified Volunteers is the only background check platform tailored to the specific needs of the service sector and the first online community to mobilize repeat, vetted volunteers.

Verified Volunteers is backed by SterlingBackcheck, one of the world's largest background screening companies, and partnered with Points of Light, the world's largest organization dedicated to volunteer service.

Villages all across the country can now enjoy the benefits of screening through Verified Volunteers:

- **The Highest Quality and Accuracy.** Using a combination of proprietary technology and a set of unique criminal locators, Verified Volunteers finds more criminal records at America's county and state courthouses and delivers the most accurate information available about your volunteers.
- **Added peace of mind.** Volunteer information is updated for you free of charge each month for the first year so you have the added security of monitoring your volunteers for new criminal records.
- **Secure and Compliant.** Verified Volunteers background checks are housed in a completely secure environment and are fully FCRA compliant.
- **Easy Ordering and Administration.** Volunteers enjoy paperless, self-service ordering and volunteer managers administer their volunteer screening online, significantly reducing administrative time.
- **Customized Payment Options.**
- **A Volunteer Community.** Volunteers can own and control a copy of their background check in secure volunteer accounts and profiles.
- **The Volunteer Fast-Pass.** Free, up-to-date background checks shared securely with you when previously vetted volunteers with another organization on Verified Volunteers share their checks with you.

We are hosting a couple of webinars so you can learn more.

Wednesday, August 26th
1 – 2PM ET / 10 – 11AM PT
